WEDNESDAY JANUARY 4, 2023

PLEDGE OF ALLEGIANCE

CHEMIC SALUTES

Drey Applegate - Shout out to Drey for some mad tech skills by taking a leadership role and filming classmates' presentations to share with the COVID-sick teacher so she could see the students' hard work and enjoy the presentations from home.

AP Chem Top Dawgs - Congrats to the following students for earning "Top Dog" status on the AP chemistry 1st-semester exam: Ben Bucci, Aiden Porritt, Luca Jolly, Autumn Brutyn, Cole Carpenter and co-toppest-dawgs Rachel Mecca & Molly Maloney!

Adopt-A-Chemic - A tremendous thanks go out to everyone who donated, organized, wrapped, and delivered presents as part of this annual program. This is just one more way that we show how much of a Chemic Family we truly have here at Midland High!

Mrs. Steger's Econ Classes - A round of applause goes out to both of Mrs. Steger's econ classes for recently completing a 500-word essay as part of their final exam. The best part of this is that all 60 of the completed essays were then uploaded to an econ scholarship competition! This means that all these juniors are already on their way to looking for some financial backing for college. A salute-within-a-salute to Mrs. Pedelty for helping with this process!

Positive Thinking ANNOUNCEMENTS:

Look for the Light: A bad moment during the day can sometimes feel like it ruins everything. One unkind comment or one low grade could send you into a tailspin of feeling awful. You can't control every little thing that happens during the day, but you can choose to look for the light instead of allowing one negative experience to ruin your whole day.

Try saying to yourself: *That happened, it feels awful, but something good that happened was...*
