POSITIVE THINKING

Opportunity is Everywhere... "A pessimist sees the difficulty in every opportunity; an optimist sees the opportunity in every difficulty." – *Winston S. Churchill*

Sometimes we overlook opportunity because it requires us to step out of our comfort zone. We can't learn in comfort zones, taking opportunities will help you grow and evolve as a person which is key to success. Unfortunately, we don't always see the opportunity before us. It isn't until later, when it no longer exists, that we can see the value in what we missed. Don't let fear, excuses or laziness rob you of opportunities. Opportunity allows us to explore our options and comes in the form of taking a chance on you, taking a leap of faith which may seem scary at first, but is necessary for us to grow as individuals. We can't always stay comfortable because comfort leads us nowhere. If we never try taking an opportunity, then how else will we ever know what we are capable of or if something is possible?! Imagine you take an opportunity, and it completely changes your life. What a story that will be to tell!

"Don't allow missed opportunities of the past to interfere with the opportunities that are right before you." ~ *Ryan Robbins*
