Project 111 would like to remind you that DISTRACTED DRIVING IS DANGEROUS!!!! Distracted driving is anything that takes your eyes off the road, your hands off the wheel, or your mind off of driving. Texting while driving is especially dangerous because it combines all three types of distraction. Sending or reading a text message takes your eyes off the road for about 5 seconds, long enough to cover our entire MHS football field while driving at 55 mph. Please show chemic pride by putting the phone down! Remember, put it away or be put in the grave! Please don't text and drive! Project 111 cares!
