Curious about all of the colorful signs in Eyeball Alley? Each sign indicates the pathways our MHS seniors have decided to take next year. See names like Andrew Steger attending Purdue University and Laura Brookens attending Spring Arbor University. Along with many others! We want to celebrate our seniors, their high school journeys, and their future plans.

Chemics, you determine your legacy. What will it be? The senior class has provided several responses about what their legacy is at Midland High. This display will be presented in Eyeball Alley and around the school.

**POSITIVE THINKING**

**In Hot Water:** Are You a Carrot, an Egg or a Coffee Bean? Life is often difficult. It can be harsh, stressful and feel like a pot of boiling water. The environments we find ourselves in can change, weaken or harden us, and test who we truly are. We can be like a carrot that goes in hard and strong but then softens or weakens in the pot. Or, like the egg that goes in fragile and soft then hardens. Or we can be like the coffee bean changing the boiling water to elevate itself and discover the power inside us to transform our environment. Each faced the same adversity but had a different result. Which are you? The carrot, the egg or the coffee bean?
