**POSITIVE THINKING**

**Create a Life List:** We all have dreams about what we hope for in our lives. Dreaming about what we want to happen is a great way to think about a positive future. Take it one step further by starting a running "Life List" that includes your hopes and dreams for the present and the future. This list can include things you hope to learn, places you want to visit, goals you want to accomplish, and fun things you want to do. Add to this list when new dreams or ideas pop into your head. Pin it up in your room so that you see it often. Find one thing on the list that you can actually begin working toward right away. Circle it. What's the first step you need to take to make this dream come true? If you can dream it, you can find a way to do it.
